Experience

Web Development & Design Internship | Inverse Paradox

January 2020 - Present | E-Commerce Web Agency | Hulmeville, PA

- Assist, fix, and create WordPress assets for various companies' websites by working closely with web developers to learn more about WordPress Development.
- Conduct quality assurance tests during pre-launch and post-launch checkpoints for websites.
- Design home and interior pages for future-live websites with other web designers to learn more about UX and best design practices.
- Communicate directly with clients regarding website assets, support, and demonstrations through video conferencing tools and emails.
- Work in an agile environment that consists of weekly sprints to ensure tasks are complete efficiently.

Apprentice | Philadelphia Mural Arts

June 2017 - November 2018 | Non-profit Mural Arts Organization | Philadelphia, PA

- Assisted artists with plotting, painting, and installing murals within communities of Philadelphia.
- Engaged in community events to spread awareness and the importance of the mural arts program.
- Practiced how to render painting and create distinct color palettes.

Student Designer | SEAMAAC

Summer of 2015 & 2016 | Non-profit Social Services Organization | Philadelphia, PA

- Collaborated and designed in a team environment to create community murals at public parks.
- Directed the design process to ensure that each team member is assigned a role in the design project.

Education

Bachelor of Science Candidate, Web Development & Design

2017 - 2021| Thomas Jefferson University | Philadelphia, PA
